

Harsco Environmental Signs 10-Year Add-On Contract With Tosyali Holding

February 11, 2020

CAMP HILL, Pa., Feb. 11, 2020 (GLOBE NEWSWIRE) -- Harsco Corporation (NYSE: HSC) announced today that its Environmental division (HE) has entered into a 10-year contract with Tosyali Holding, Turkey's leading flat steel and steel pipe producer, to provide an expanded range of services at its Toscelik Osmaniye flat steel production plant. HE and Tosyali Holding announced in May 2017 an exclusive joint venture for metal recovery and slag sale services at the Toscelik Osmaniye site.

The new agreement – valued at over \$17M USD – calls for HE to provide both lancing and furnace slag cleaning services at Toscelik Osmaniye, improving the plant's productivity and advancing its environmental sustainability goals.

"We are happy about the service supplied by Harsco," said Toscelik Osmaniye General Manager Ahmet Turan. "They do their job safely and maintain high equipment standards. The Harsco team is available at all times, which is critical to our business needs."

"I would like to congratulate our team for the outstanding performance that made this win possible," said Harsco Environmental Chief Operating Officer Russ Mitchell. "This expanded relationship is testament to Tosyali's confidence in our ability to deliver services that advance both their business and environmental goals."
