

## Clean Earth Announces ITAD Solutions and More for Arrow Electronics Customers

July 24, 2019

**Clean Earth offers an integrated strategy that allows its clients to reduce the amount of waste produced, implements best practices for handling waste on-site, and provides a full range of treatment options to meet specific needs.**

HATBORO, Pa., July 24, 2019 /PRNewswire-PRWeb/ -- Clean Earth, A Harsco Company, one of the largest specialty waste recycling and disposal company in the United States, is welcoming all Arrow Electronics customers now seeking a solution for IT Asset Disposition services and solutions. In addition to ITAD services, Clean Earth can provide Arrow Electronics customers with a full suite of electronics and universal waste recycling and disposal solutions customized to their specific needs.

"Clean Earth has both the infrastructure and the personnel in place to service immediate needs, and to scale to accommodate new programs if need be," said Clean Earth President Chris Dods. "For over 20 years, we have serviced institutions in the financial, retail, education, data center hosting, defense, app development, and health care industries, and we stand ready to assist Arrow customers with their own recycling and disposal needs."

Strategically located across the United States, all Clean Earth electronics processing facilities have the distinct industry designation of being an R2/RIOS Certified Electronics Recycler™ and have been independently certified to achieve this industry designation. Clean Earth also has a NAID certified electronics facility in Allentown, PA, all locations have been reviewed by ISNetworld, and Clean Earth locations in Modesto, CA; Hayward, CA; West Melbourne, FL; and Allentown, PA have all been reviewed by CHWMEG. Clean Earth welcomes all customers to visit our facilities to learn more about our certifications, customized electronic waste and ITAD solutions, and outstanding customer service.

Clean Earth offers an integrated strategy that allows its clients to reduce the amount of waste produced, implements best practices for handling waste on-site, and provides a full range of treatment options to meet specific needs.

### About Clean Earth

Clean Earth's vision is to create a better future for our people, partners, and planet by turning specialty waste into recycling opportunities. Clean Earth is one of the largest specialty waste companies in the United States providing remediation, disposal, recycling, and beneficial reuse solutions for contaminated soil, dredged material, and hazardous and non-hazardous waste. Headquartered in Hatboro, Pennsylvania, it operates a network of 27 full-service facilities. As a leader in the industry, Clean Earth has the experience and capabilities to provide efficient, effective waste recycling and disposal solutions. Our vast portfolio of technologies and services touches nearly every industry that generates waste including energy, infrastructure, commercial, industrial, retail, and healthcare markets.
