

## Tosyali Harsco, a Joint Venture Between Harsco Environmental and Tosyali Holding, Enters Into Multi-Year Service Contract With Kardemir Steel

June 22, 2022

- *This is the JV's first contract with Kardemir and first contract in Western Turkey*
- *Reinforces Company's intention to grow its footprint in Turkey*

CAMP HILL, Pa., June 22, 2022 (GLOBE NEWSWIRE) -- Tosyali Harsco, a joint venture between Harsco Environmental and Tosyali Holding, announced today it has successfully entered into a new multi-year services contract with Kardemir Steel.

Kardemir is a family-owned steel mill located in Izmir, Turkey, producing long products and profiles at three separate facilities. Kardemir owns and operates three hydroelectric power stations in Hakkari, Ordu and Van, two wind power stations in Aydın and Aliaga/Izmir and solar power stations.

Tosyali Harsco brings to Kardemir its expertise in safe and reliable under furnace digging. Kardemir is a new customer for Tosyali Harsco, and a first contract in the Izmir area in Western Turkey. This reinforces Tosyali Harsco's ambition to grow its footprint in all areas of steelmaking in Turkey.

"This Kardemir multi-year service contract is the product of Tosyali Harsco's performance in Turkey and unique offerings in the industry as a provider of environmental solutions and services," said Stéphane Boissinot, Director of Operations, Europe South, Eastern Europe, Turkey & SteelPhalt for Harsco Environmental. "Kardemir is an important steel mill in Turkey. We see this contract as the start of a long-term relationship where we can grow and further demonstrate our capabilities in environmental solutions."

"We are pleased to be working with Tosyali Harsco at our new melt shop," said Önder Karalp of Kardemir. "Keeping our environment clean and our employees safe is a top priority for us. Thanks to their impressive safety record and experience in this content we are confident Tosyali Harsco's technology will help us to keep our environment clean and our employees safe while helping us maintain productivity."

### About Harsco Environmental

Harsco's Environmental division is the largest and most comprehensive provider of onsite material processing and environmental services to the global metals industry, with operations at over 130 customer sites across more than 32 countries. The division is a technology partner to cleaner, more efficient metal production, providing customers with economically and environmentally viable solutions for the treatment and reuse of production by-products. Based in Camp Hill, PA, the 12,000-employee company operates in more than 30 countries. Harsco's common stock is a component of the S&P SmallCap 600 Index and the Russell 2000 Index. Additional information can be found

### About Tosyali Harsco

Tosyali Harsco is a joint venture between Tosyali Holding, Turkey's global iron-steel leader and global industrial company Harsco Corporation (NYSE: HSC) specialized in metal recovery services and slag sales. Tosyali Harsco operates steel mill services and slag sales on 6 separate sites in Turkey. Tosyali Harsco processes slag wastes generated during the steel production, providing metal recovery and turning the inert slag into by-products for use in different sectors. Tosyali Harsco has a processing capacity of more than 2.000.000 tons/year in Turkey. The company utilizes limited resources in the most efficient way with its "clean environmental awareness" and gives life to slag for a better world.
