

## Tosyali Harsco Environmental Signs 10-Year Contract With Tosyali Holding to Provide Services at New Plant

December 13, 2022

**Following signing of a new 10-year contract, Harsco Tosyali will provide slag management services at Toscelik's new plant in Sariseki, Turkey.**

CAMP HILL, Pa., Dec. 13, 2022 (GLOBE NEWSWIRE) -- [Harsco Corporation](#) (NYSE: HSC), a global market leader providing environmental solutions for industrial and specialty by-products, announced today that Tosyali Harsco, Harsco's joint venture with Tosyali Holding, Turkey's leading flat steel and steel pipe producer, signed a 10-year contract with an estimated revenue of \$210 million USD to provide services at the company's green field steel plant in Sariseki, Iskenderun.

Initial plant commissioning is set to begin at the new green field steel plant in Sariseki, in March 2023. The plant is a significant investment of nearly \$2.5 billion USD value for Tosyali and will include a total 4 million ton capacity, two Quantum electric arc furnaces, slab and billet casting machines, a hot rolling mill, and long and flat product finishing lines. With the Sariseki facility, Tosyali will be the first steel producer in Turkey to use Quantum technology which reduces energy consumption.

Tosyali Harsco's scope of work at the new Sariseki plant will include the treatment of all scraps via sorting, shearing, lancing and cleaning processes, scrap handling and logistics to the melt shop, underfurnace cleaning, ladle slag handling and slag processing.

"I would like to congratulate our team for the outstanding performance that made this win possible," said Harsco Environmental Chief Operating Officer Russ Mitchell. "This expanded relationship is a testament to Tosyali's confidence in our ability to deliver services that advance both their business and environmental goals."

"With the Tosyali Sariseki investment, we are using state of the art technology in our furnaces, which are very sensitive to scrap. Tosyali Harsco's technology and experience will promote operational excellence," said Tosyali Holding Chief Executive Officer, Dr. Suhat Korkmaz. "With our plans for growth and common environmental goals, we hope to see great collaboration in the future."

### About Tosyali Harsco

Tosyali Harsco is a joint venture between Tosyali Holding, Turkey's global iron-steel leader, and global industrial company Harsco Corporation (NYSE: HSC) specialized in metal recovery services and slag sales. Tosyali Harsco operates steel mill services and slag sales on six separate sites in Turkey. Tosyali Harsco processes slag wastes generated during the steel production, providing metal recovery and turning the inert slag into by-products for use in different sectors. Tosyali Harsco has a processing capacity of more than 2,000,000 tons/year in Turkey. The company utilizes limited resources in the most efficient way with its "clean environmental awareness" and gives life to slag for a better world.

### About Tosyali Holding

Tosyali Holding has created economic and social value for 70 years with nearly 30 facilities and approximately 15,000 employees in 3 continents. Tosyali is one of Turkey's global steel producer with an annual iron and steel production of nearly 6 million tons. According to the data of the World Steel Producers Association, it ranks 83rd among the world steel producers in 2021. Standing out with its product variety in the iron and steel industry, Tosyali meets the needs of many industries, from automotive to white appliances, from energy to construction, with its wide product range. Tosyali Holding, which has significant investments abroad, has started investment in Angola and Senegal following Montenegro and Algeria operations. One of the largest industrial facilities in Algeria, "Tosyali Algeria" draws attention as being Turkey's largest industrial investment abroad. Reinforcing its global business capability with foreign partnerships, Tosyali has been also carrying out successful business partnerships with Japanese Toyo Kohan and US Harsco companies in Turkey for many years. Tosyali Holding, which has made significant investment in sustainability, technology, and innovation, aims to be one of the leading companies in green steel production and to reduce its carbon footprint level by developing and by using the highest technologies; such as the world's largest DRI (Directly Reduced Iron) facility used in its production in Algeria and Quantum Furnace, which will be used for the first time in Turkey in its production facility in Sariseki, Turkey. Having international knowledge in the management and operation of industrial zones, Tosyali is planning port investments in Erzin, in addition to ongoing port operations in Iskenderun and Algeria. Tosyali Holding also continues its activities in the industrial zone management both in Turkey and in Africa.
