Harsco Environmental Secures 10-Year Contract Renewal with EZS

October 29, 2026

On-site mill services agreement continues long-standing relationship dating back to 1999

LONDON, Oct. 29, 2026 (GLOBE NEWSWIRE) -- Harsco Environmental, a division of Enviri Corporation (NYSE: NVRI) and a global leader in providing innovative environmental solutions, today announced it has signed a 10-year contract renewal with EZS, a steel mill in Sadat City, Egypt, with a production capacity of one million tons of rebar per year.

Under the agreement, Harsco Environmental will provide furnace and scrap management services at the EZS site, which includes steel-making facilities such as an electric arc furnace, a billet caster, and two rolling mills. Harsco Environmental will help EZS maximize operational efficiency, recover valuable materials, and improve environmental performance.

“The renewal of this long-standing partnership demonstrates the strength of our collaboration with EZS and the value Harsco Environmental delivers to steel producers through safe, efficient, and sustainable mill services,” said Harsco Environmental’s Regional President of EMEA, Stéphane Boissinot. “This contract renewal both reinforces our regional presence and creates opportunities to drive future growth.”

EZS is owned by EZZ Steel, the leading steel producer in the Middle East and North Africa, with an average annual production of around 6.5 million tons. This is one of three contracts Harsco Environmental has with EZZ Steel. The Company also provides services to EZDK in Alexandria and to EFS in Sokhna, further supporting steelmaking operations across Egypt.
